RE: Pam Lowenthal

To Whom It May Concern:

Mrs. Pam Lowenthal is under my care for the treatment of recurrent metastatic breast carcinoma to the brain, lungs, pleural fluid, liver and bone. She is currently undergoing systemic chemotherapy and whole brain radiation therapy. Although it is too early to tell whether or not she is responding to therapy, her prognosis is guarded. I have spoken to her family regarding these issues.

If there are any further questions, please do not hesitate to call upon me.

Sincerely,

Leonard M. Klein, M.D.
